- 4. Apply the principles of Home Management in housing and family living.

DETAILED SYLLABUS

ŗ	TOPICS/CONTENTS/NOTES	OBJECTIVES
SECTION A: HOME ECONOMICS EDUCATION		
1. Ho a. b.	Meaning, scope and importance of Home Economics Objectives and ideals of Home Economics	Candidates should be able to: i. examine the importance of Home Economics to the individual, family and society; ii. identify the objectives of Home Economics. iii. determine the scope of Home Economics.
2. Ar a. b. c. d. e. f. g. h.	eas/Careers in Home Economics Home Management - Interior decoration - Credit management - Florist Foods and Nutrition - Catering - Dietetics - Nutritionist - Public Health Education Clothing and Textile - Fashion designing Family and Child development - Early and childhood education Teaching Counseling Media Research	Candidates should be able to: i. recommend possible vocations in the different areas of Home Economics. ii. relate skills required to each vocation; iii. assess the benefits of each vocation to the individual and society; iv. identify current vocations in Home Economics; v. identify sources of career information.

	TOPICS/CONTENTS/NOTES	OBJECTIVES
3.	Interrelationship of Home Economics with other subjects: Biology, Geography, Chemistry, Physics, Agricultural Science, Fine Arts, Economics, Mathematics etc.	Candidates should be able to: i. compare the different areas of study from which Home Economics derive its knowledge ii. determine the contributions of these subject to Home Economics.
SE	CTION B: HOME MANAGEMENT	
1.	 Principles of Home Management a. Meaning of Home Management b. Steps in the management process c. Decision-making: meaning and process d. Motivation for Home Management e.g. goals, values, standards, needs and wants, likes and dislikes. 	Candidates should be able to: i. Highlight the meaning of Home Management ii. identify steps involved in the management process; iii. determine issues for decision-making in the home; iv. examine the role of motivators in home management.
2.	Resources a. Human Resources: definition and types i. Time management; definition/ types - types of worktime - factors influencing the use of time - advantages of time management ii. Energy, definition and reasons for energy management - work simplification - its purpose - guidelines for work simplification and time saving gadgets; iii. Skills, creativity, attitudes etc. b. Material Resource: definition/types - income and money management - meaning and types of income - principles of money management - household budgeting; steps in making a budget - economic security of the family - bank accounts - traditional savings, building societies and insurance.	Candidates should be able to: i. identify the resources available to the individual and family; ii. determine the steps involved in household budgeting; iii. examine ways of family saving; iv. apply the principle of time management to work simplification in the home; v. examine the sources of income available to an individual; vi. give reasons for saving family income; v. examine the sources of income available to an individual; vi. give reasons for saving family income; vii. suggest alternative resources for home management; viii. analyse the principles of money management.
3.	Family Living a. Definition and types of family i. Advantages and disadvantages of family types ii. The family life cycle b. Family relationships - husband/wife relationship, parent/child relationship, brother/sister or sibling relationships - factors that influence family relationship	Candidates should be able to: i. compare types of family; ii. assess the effect of family life cycle on family living; iii. differentiate between the types of relationships that exist in the family; iv. determine the factors that influence family relationships; v. assess the influence of family size on family relationships; vi. identify characteristics and problems of

TOPICS/CONTENTS/NOTES		OBJECTIVES
	c. Basic personality profiles	adolescents. vii. compare the basic personality profiles (extrovert, introvert); viii. identify types of family crises and ways of solving them; ix. identify sources of conflict and solution strategies; x. identify types of human right and human right violation; xi. suggest remedies for breach of human rights; xii. identify factors that hinder communication in the family; xiii. determine factors that enhance communication in the family; xiv. identify the advantages and disadvantages of ICT.
4.	Marriage/Sex Education Meanings of marriage and sex education a. Boy/Girl relationship	Candidates should be able to: i. differentiate between types of marriages in Nigeria; ii. compare the advantages and disadvantages of inter-tribal marriages; iii. analyse the role of courtship and engagement in marriages; iv. examine the different ways of planning a family; v. identify types, causes and prevention of sexually transmitted infections and diseases.
5.	Pregnancy and childbirth a. Menstruation, pregnancy and childbirth, labour delivery and post-natal care b. Childcare, baby's layette care of the baby, bathing, feeding etc. c. Care of toddlers - common ailments in children - immunization d. child development - stages, social and emotional - good habits and character training - play and play materials e. Parenting - meaning and importance - responsibilities of parents	Candidates should be able to: i. describe the process from conception to birth; ii. determine the care an infant needs from birth to 5 years; iii. determine the factors that affect pregnancy; iv. analyse complications that arise during labour; v. differentiate between the stages of labour; vi. identify the symptoms of common ailments in children; vii. differentiate between the types of play materials viii. trace the stages of development in children; ix. recommend suitable play materials for children; x. identify responsibilities of parenting.
6.	Housing the family a. Houses and home - types of houses - factors that affect the choice of a house - ways of acquiring a house b. Interior decoration	Candidates should be able to: i. differentiate between a house and a home; ii. determine the factors that influence residential choice; iii. identify items that beautify living areas;

	T	OPICS/CONTENTS/NOTES	OBJECTIVES
	c.	 wall finishing and the application of principles of art and design to colours textures lines and proportions flower arrangements Furniture and furnishings in the home types factors that affect choices and position. 	 iv. suggest suitable colours, textures and other related factors that should be considered in interior decoration; v. determine factors that influence choice and arrangement of furniture; vi. compare different floral arrangements;
	d.	Utilities in the Home i. Water – source, uses, purification etc. ii. Household fuels e.g gas, coal, kerosene, fire wood and sawdust iii. Electricity – related terms, generation, safety etc. iv. Communication devices e.g. GSM, computer	Candidates should be able to: i. identify utilities in the home; ii. appraise the advantages and disadvantages of these utilities in relation to their alternatives
7.	Hoi	me surfaces	
	a. b.	Types and care of surface and coverings e.g. wood, tiles, formica, concrete plastics, linoleums, mats rugs and terrazzo Identification, preparation and use of cleaning agents such as water, soap, abrasives and polish - Care of home surfaces and coverings e.g. washing, sweeping, dusting, shampooing, buffing and polishing.	Candidates should be able to: i. identify common surfaces in the homes ii. suggest cleaning agents and their uses in the home; iii. identify materials needed for preparing local cleaning agents; iv. compare the care of the following: - wood - plastic - concrete - rugs - mats - linoleum
8.	San	itation in the Home	
	a. b. c. d.	Drainage systems – types and care Disposal of household refuse Household pest and control Pollution and health hazards	Candidates should be able to: i. differentiate between the types of liquid household refuse; ii. suggest ways of disposing household refuse; iii. identify common household pest and their control iv. identify some disease transmitted by pests; v. examine sources of pollution; vi. determine the health hazards of pollution.
9.		nsumer Education	Condidates should be able to
	a. b. c. d. e. f.	Meaning and importance of consumer education Definition and types of market Distributors or consumer agents Sources of consumer information Purchasing practices Advertising	Candidates should be able to: i. identify the types of media used by advertisers; ii. assess its advantages and disadvantages; iii. determine sources of consumer, advice and information; iv. apply the principles of consumer education to wise shopping;
	g.	Consumer rights and responsibilities	v. analyse the rights and responsibilities of the

	T	OPICS/CONTENTS/NOTES	OBJECTIVES
	h.	Government agencies and regulatory bodies	vi. identify the government agencies regulatory bodies and their functions.
SEC	CTIO	ON C: FOODS & NUTRITION	
1.	Foo a.	ods and Nutrition Definition of food and nutrition i. Classification of nutrients, their	Candidates should be able to : i. differentiate between the following terms: food
		source and function, deficiency diseases ii. Classification of foods, cereals, fats and oils, sugars, milk and milk products, meat, fish pulses, nuts,	nutrients, carbohydrates, mineral elements, fatty acids enzymes, metabolism and digestion; ii. analyse the process which break down large food molecules; iii. recommend the nutritional need for special
	b.	fruits and vegetables. Nutrition and health i. Relation of nutrition and health ii. Factors affecting good nutrition e.g. income, food in season, availability of food etc.	groups; iv. determine the reasons for the nutritional needs of the following: - expectant/ lactating mothers - sedentary /manual workers - children between 5 and 8 years
	c. d.	The digestive system Nutrition for special groups e.g. infants, toddlers, adolescents, manual workers, etc.	 adolescents. identify factors affecting good nutrition.
2.		al planning	
	a. b.	Principles of meal planning dietary needs and meals for special occasions and groups	Candidates should be able to: i. identify factors that influence the choice and preparation of food for the family;
	c. d.	preparation and serving of meals snacks and beverages - meaning, types and functions	ii. plan meals for special occasions e.g. weddings, birthdays, anniversaries, etc;iii. plan meals for special groups e.g. vegetarians,
	e.	Table setting, table manners and hostessing	invalids convalescence, HIV/AIDS, etc. iv. identify types of snacks/beverages and their functions
			v. compare types of table setting;iv. determine the qualities of a good hostess.
3.	Coo a.	Dkers and cooking Types, choice and care of cookers e.g.	Candidates should be able to:
	b.	gas, electric, microwave, etc Reasons for cooking	i. suggest reasons for cooking food;ii. identify types of cookers, their choice and care.
	c. d.	Cooking terms Methods of cooking e.g. boiling, stewing, baking, steaming etc - moist and dry methods of cooking	iii. group the methods of cooking into the following:- Moist methods- Dry methods
	e.	Methods of heat transfer e.g. conduction, convection and radiation.	- Fast methods - Slow methods iv. determine the method of heat transfer in the various methods of cooking.
4.		urs and uses	-
	a. b.	Types and uses of flours Raising agent e.g air, yeast palmwine, steam, etc.	Candidates should be able to: i. identify types of flours and their uses; ii. select appropriate raising agents for basic mixtures;

	TOPICS/CONTENTS/NOTES	OBJECTIVES
		iii. use flour to produce assorted food items;
5.6.	Basic mixtures - Pastries/Batters - Definition/uses Scientific methods in foods and nutrition a. measure units and accuracy b. various nutrients tests in food e.g test for protein, fats and carbohydrates c. recipe development	Candidates should be able to: i. differentiate between batters and pastries; ii. use batters and pastries for different purposes; Candidates should be able to: i. develop basic recipes in food preparation ii. demonstrate skills in unit measurements; iii. detect the nutrient in a given food.
7.	The Kitchen: - types of kitchen; - arrangement - tools and equipment - selection, use and care	Candidates should be able to: i. compare large and small kitchen equipment and tools; ii. determine factors to consider in selecting tools and equipment.
8.	 Safety and hygiene a. Common accidents in the home causes of accidents in the home/ preventive measures. b. First Aid; definition/components of a first aid kit simple first aid for burns, scalds, cuts bruises, bleeding, electric shock, poisoning, chocking and bites. c. Kitchen, personal and food hygiene Communicable and non-communicable disease. d. Sense organs and care Exercise and cosmetics 	Candidates should be able to: i. identify common accidents in the home, their causes and preventive measures; ii. suggest ways of making the home a safe place to live in; iii. specify items which should be included in a first aid kit iv. suggest simple first aid for scalds, cuts, bleeding, burns etc. v. detect ways in which food is contaminated; vi. compare communicable and non-communicable diseases and their preventive measures; vii. determine the effect of exercise and cosmetics on the skin; viii. describe the structure of the sensory organs; ix. suggest ways of taking care of the sensory
9.	Food Storage and Preservation a. Meaning and purpose of preservation - causes of food spoilage - principles of food preservation - methods of food preservation. b. Convenience foods - definition and types - guidelines for selection - additives to convenience foods. c. Food additives	Candidates should be able to: i. identify agents of food spoilage; ii. analyse the principles involved in the preservation and storage of foods; iii. compare the advantages and disadvantages of food preservation; iv. identify convenience foods; v. compare the advantages and disadvantages of using convenience foods vi. determine guidelines for selecting convenience foods;
	- Types and uses d. Rechauffe dishes - meaning, rules and types - advantages and disadvantages of	vii. identify additives used in foods; viii. compare the advantages and disadvantages of rechauffe dishes

TOPICS/CONTENTS/NOTES				OBJECTIVES
		rechauffe dishes		
10.	Hor a. b. c. d. e. f.	me Gardening definition common gardening tools advantages of home gardening types of soil plants and crops suitable for home garden preparation and care of home garden	Candi.	didates should be able to: determine the procedure involved in home gardening; identify gardening tools; assess the economic importance of home gardening;
SEC	CTIO	N D: CLOTHING & TEXTILE	Cand	lidates should be able to;
1.	1. Fibres and Fabrics a. origin of fibres - definition of textile terms, eg fibres, fabrics, yarn, staple, filament, blends, etc. b. locally made fabric e.g. aso-oke, Okene cloth, Benue cloth, akwete, gwado etc. c. classification and properties of fibres e.g cotton, rayon and silk d. fabric finishes: moth-proofing, embossing, durable pleating, flame-proofing and stain-repellant print e.g tie and dye, screen printing etc. e. Textile labelling - meaning and types - recognition of washing, cleaning and ironing symbols, wool symbols		i. ii. iii. iv. v.	differentiate between weaves using diagrams; determine the characteristics of fabrics; identify reasons for giving finishing to fabrics; compare types of labels found on clothing; state the uses and importance of locally made fabric; assess the importance of label on garments.
2.	Sew	ing equipment and garment		
	con	struction		lidates should be able to:
	a.	Sewing machine, basic tools and equipment - types, parts, use and its care	i. ii.	identify the types and parts of a sewing machine; identify basic tools and equipment used in
	b.	Basic process in garment construction e.g basic stitches, seams edge finishes, crossway strips.	iii.	garment construction; describe various process in garment constructions;
	c.	Style features e.g collars, yokes, pockets, frills, cuts and belts.	iv. v.	apply basic process in garment construction; determine style features on garments;
	d.	Arrangement of fullness e.g darts, tuck gathering, pleats, smocking and shirring.	vi.	determine style features to enhance the beauty and quality of garments;
	e.	Decorative design, decorative stitches, needlecraft e.g tarting, crocheting, knitting, appliqué patch work and soft toys.	vii. viii. ix.	apply decorative designs on fabrics; differentiate between types of household clothing using various designs; apply the knowledge of sewing to mend and
	f.	Simple processes and mend garments e.g patching, darning and renovation, batik/tie and dye	x.	renovate garments; compare the process of making batik/tie and dye;
	g.	Garment construction - figure types, basic body measurement	xi.	relate body figures to the selection of styles and fabrics;
		and pattern drafting	xii.	determine factors which affect the choice of

	Τ	COPICS/CONTENTS/NOTES	OBJECTIVES
	h.	 choice of styles for different figures factors influencing the choice of fabric. Wardrobe planning and maintenance basic rules in wardrobe planning factors affecting wardrobe planning, weather, occupation, personal features. good grooming, dress sense and accessories definition 	clothing; xiii. identify factors to consider in wardrobe planning; ivx. compare the following terms: - good grooming - dress sense - accessories - colour harmony
3.	Lau a. b. c.	Washing and finishing process, sorting, mending, removal of stains, soaking, rinsing, drying and ironing Laundry agents — water, detergents, soaps, stiffness and disinfectants Stain i. meaning, types, removing agents ii. process of removal Iron and ironing temperatures	Candidates should be able to: i. arrange in correct order the processes involved in the washing and finishing of clothing; ii. compare the role of stiffeners and disinfectants in laundry work; iii. suggest ways of removing common stains; iv. differentiate between the following: - laundry agents - stains - ironing temperatures.
